LUCKMAN LAW BULLETIN

HURRICANE PREPARIDNESS EDITION

SUMMER 2019
HURRICANE EDITION

Dear Friends;

It’s that time again— hurricane season. Every year we wonder if we will be in the bullseye of a storm. Just like you, I prepare my home, business and family for the worst and hope for the best. I hope that some of the tips we have put together for you will be helpful in keeping your family safe during this hurricane season which runs from June 1— November 30th. As always, if you have questions about a hurricane claim, please feel free to contact our office. Be safe,
Eric

Hurricane Checklists

The most important thing you can do as hurricane season approaches is to get yourself, your family and your home prepared. Early predictions say the country could see between 12 and 14 named storms with as many as 4 major hurricanes.

By starting early, you’ll avoid the rush at home supply stores, grocery stores and other venues typically crowded and often chaotic when hurricane watches and warnings are issued.

You should stock six basics for your home: water, food, first aid supplies, clothing and bedding, tools and emergency supplies, and special items. Keep the items you would most likely need during an evacuation in an easy-to carry container. Possible containers include a large, covered trash container, a camping backpack, or a duffle bag. The below list is also important if you anticipate filing a flood insurance claim. Make your preparations easier by downloading the checklists from the Internet—websites such as weather.com and redcross.org.

Hurricane Sandy Flood Insurance
Claims Review
Document Checklist:*

- Flood insurance carrier name
- Policy number, at date of loss
- Address of property that was damaged
- Current mailing address and telephone number
- Date of loss
- Photographs of damages, including the current condition of the building, as well as the repairs made
- Concise statement explaining the additional payment requested
- Repair receipts

For additional information on the Sandy Claims Review, visit www.fema.gov/hurricane-sandy-nfip-claims

*These items are helpful but it is not necessary to have all of them

- Free consultation
- Home appointment available
- 24 hour emergency service
- No recovery, no fee
- We do not get paid unless you do
- Board Certified Civil Trial Lawyer

NOAA PREDICTS NEAR-NORMAL 2019 ATLANTIC HURRICANE SEASON

A graphic titled "2019 HURRICANE SEASON" featuring a large red number "9" on the left. To the right is a table comparing average hurricane statistics with NOAA's 2019 forecast.

	AVERAGE	NOAA FORECAST
TROPICAL STORMS:	12	9-15
HURRICANES:	6	4-8
MAJOR HURRICANES:	3	2-4

Hurricane season — which officially began Friday, June 1 — is here!

The National Oceanic and Atmospheric Administration (NOAA) has predicted an average to near-normal hurricane season for 2019.

For 2019, NOAA predicts a likely range of 9 to 15 named storms (winds of 39 mph or higher), of which 4 to 8 could become hurricanes (winds of 74 mph or higher), including 2 to 4 major hurricanes (category 3, 4 or 5; with winds of 111 mph or higher). NOAA provides these ranges with a 70% confidence. An average hurricane season produces 12 named storms, of which 6 become hurricanes, including 3 major hurricanes.

WHY CALL US?

Eric Luckman is a Florida Board Certified Civil Trial lawyer. Less than 2% of lawyers in the state of Florida are recognized with this prestigious certification.

Board certification recognizes attorneys' special knowledge, skills and proficiency in various areas of law and professionalism and ethics in practice.

Feel free to call our office to discuss your case. The initial consultation is free, and you will speak directly with Eric Luckman, about your claim and your rights.

1. Determine your risk. Hurricanes cause problems for people in coastal areas but can also cause damage hundreds of miles inland.
2. Talk with household members and create an evacuation plan.
3. Build an emergency kit with a gallon of water per person, per day, non-perishable food, a flashlight, battery-powered radio, first aid kit, medications, supplies for an infant if applicable, a multi-purpose tool, personal hygiene items, copies of important papers, cell phone chargers, extra cash, blankets, maps of the area and emergency contact information.
4. Be informed. Learn about the community's hurricane response plan. Plan routes to local shelters, register family members with special medical needs as required and make plans for pets.
6. Download the free Red Cross Emergency App to select up to 35 different severe weather and emergency alerts on their mobile device. All Red Cross apps can be found in smartphone app stores by searching for American Red Cross or by going to redcross.org/apps.
7. Keep insurance policies, documents, and other valuables in a safe-deposit box. You may need quick, easy access to these documents. Take pictures on a phone and keep copies of important documents and files on a flashdrive.
8. Protect windows with permanent storm shutters or invest in one-half inch marine plywood that is pre-cut to fit your doors and windows.
10. Clear loose and clogged rain gutters and downspouts to prevent flooding and unnecessary pressure on the awnings.

This year getting life-saving information about impending hurricanes is easier than ever. Just ask 'Alexa'. You can activate the Hurricane Alert Skill for popular Amazon Alexa-enabled devices including the Echo, Echo Dot, Echo Show and Echo Spot.
